homely

Smart. Simple. Homely.

INSTALLER REVIEWS

Don’t just take our word for it - ask our installers!

“...we highly recommend the Homely thermostat. Its straightforward installation process saves our team time, and its broad compatibility with various heat pump systems ensures versatility. With Homely Connect, we can efficiently monitor and review all our jobs. Clients love the user-friendly app and smart features, which enhance energy efficiency and comfort. The Homely thermostat is our go-to choice for reliable, hassle-free installations that consistently satisfy customers.”

Conor Murphy Plug me in A Calisen company

“Since installing Homely our customers have had increased savings and comfort. Additionally, the monitoring through Homely Connect has meant we can diagnose systems remotely, improve efficiency, and suggest changes for increased comfort. Installing a Homely is straight forwards and has meant retrofitting them after an installation is easy. An absolute game changer for any heat pump installation company.”

Michael Crook HPI HEAT PUMP INSTALLERS

“Homely has helped us simplify the installation and commissioning process for heat pumps, while also giving us a powerful tool to monitor performance post-installation. It’s made troubleshooting easier, provides real feedback on actual vs. calculated heat demand, and offers customers real savings through smart tariff integration”.

Christoph Grossbaier econic energy

“Homely plays a key role in our mission to simplify heat pump ownership. Its smart, weather-responsive controls go beyond traditional heating curves, adapting to the unique characteristics of each home. With Homely Connect, we gain remote diagnostics and real-time data, helping us fine-tune performance and spot issues before they become problems.”
