Homely Technical Sheet
V3 Hub
January 2026

homely

Homely is the smart controller for optimising heat pumps

Designed to be easy to install, Homely is packed with smart features that create real value for installers and homeowners alike — helping heat pumps perform at their best, without the complexity.

Installer features

- Wireless temperature sensor so no wires, drilling or holes
- Free, on-demand, online training with expert support available
- You'll never need to set the weather compensation again
- One-Touch Commissioning*
- Simple set up with our easy-to use installer app
- Remote monitoring and diagnostics with Connect Pro

*certain integrations only

Homeowner features

- Save up to 31% on heat pump bills when combining a multi-rate tariff with the Smart+ plan
- It's ready for the future. The hub is ready to be the beating heart of the electrified home with Solar PV, Battery Storage and EV Charging features coming soon
- Control heating and hot water from anywhere with the Homely app
- Optimises the heat pump for multi-rate tariffs for just £25 per year with Smart+

Supported Heat Pumps

Airwell / Clivet / Daikin / Grant / Ideal Heating / LG / Midea / Mitsubishi / Nordis / Riello / Trianco / Samsung / Worcester Bosch

We frequently update our list of integrations.
